

# Nanaimo Women Cancer Support Group

## A Social Network for Women Survivors of Cancer

Whether you are just diagnosed, in the middle of treatment, recovering from treatment, or a long term survivor, you are welcome to attend our monthly group meetings.

Our focus is on providing a safe, confidential, supportive place to share your cancer experience, and to facilitate information exchange and education (guest speakers, videos, etc). We are not a professionally facilitated group, but this group does adhere to the highest standards of professionalism, ethics and personal responsibility.
