June 5, 2020

Good afternoon Snuneymuxw,

We have come a long way since the start of the pandemic and your willpower has compelled our Nation forward. This Snuneymuxw unity, compassion and determination has lifted us to rise above the many challenges we have faced together, and this is something to be proud of.

The Snuneymuxw COVID-19 Safety Plan outline several WorkSafeBC procedures and workplace safety requirements for re-starting operations. On June 1, 2020 Snuneymuxw employees began returning to work and everyone must follow the new instructions for access and use of Snuneymuxw public facilities (gym and fitness room, longhouse kitchen) and service buildings (band office, health center, QQS, woodbank, daycare, Petroglyph Development Group). People are no longer permitted to enter and exit these places freely and services will be by appointment only. To find out more about all of the workplace safety measures, please visit the Snuneymuxw website to view the Snuneymuxw COVID-19 Safety Plan. With this new normal, all of us must continue to do our part, as individuals and families, to protect our Nation.

On behalf of Chief and Council, thank you for working together as one as we move forward through this pandemic, safely and cautiously. If you have any questions or concerns please contact our office at 250-740-2300 and we will ensure these are addressed.

Respectfully,

Chief Mike Wyse
